NASHVILLE, TENN.

FRIDAY MORNING, JULY 22, 1853.

"HONDE TO WHOM HONOR," &c .- The Bauner calls Tennessee "the head of the whig column of seat in a discused Liver. (See Dr. Guan's great works.) the Union!" What will Vermont, the acknowledged head of the whig party, say to this? The tail must learn to keep its place behind.

NEW ORLEANS COMMISSION HOUSE .- By reference to the advertisement it will be noticed that the Tennessee firm of Pickert, Perkins & Co. whose reputation as reliable business men has long been proverbial in this section, have connected with them in the above business and Banking combined, J. R. MACMURDO, who will doubtless secure additional confidence to this popular

The above paragraph from our paper of yesterday confounds two New Orleans houses: that of PERSONS, CAMPBELL & Co., and PICKETT, MAC-MURDO & Co. The advertisements of both houses will be found in our advertising columns.

SPEAKING. - SAML. P. AMENT, Esq., in compliance with a request will address the Mechanics of the city at Jourson & Smith's corner, on Saturday

NASHVILLE, July 21, 1853. To the Mechanics :- Gentlemen :- You notify me through the Ecening News of the 19th, that you have made the necessary arrangements for me to address the Mechanics of Nashville, having selected Johnson & Smith's corner, on Broadway, as the place. In reply let me say to you that it meets my approbation fully; and on Saturday evening, the 23rd inst., between 7 and 8 o'clock, I will meet you, I hope in some degree prepared to interest you. Yours very Respectfully, SAMUEL P. AMENT.

♣ FRANCE AND THE EASTERN QUESTION .- A disputch from Paris, dated the evening of the 23d June,

"The Russian Minister, M. de Kisseleff, had an interciew yesterday with the Emperor, when his Majesty is reported to have said, Monsieur l'Ambassadeur, tell your sovereign that I do not seek for war, but if war begins I shall not be the first to return the sword to the scabbard.' This observation proves that the Emperor fully understands the meaning of Count de Nesselrode's note to be unriendly towards France, and may serve to confirm the correctness of the view taken in Paris by those who look on the Russian note as having raised a fresh danger in the provocation it throws at the French Emperor, who, however desirous he may be of peace, is not without motive for taking up the gauntlet should it be rashly flung down."

But the commencement of hostilities in the East even should they finally become a "fixed fact," you is seen to be put off. The order to cross the Pruth equid not reach the Bessarabian army from St. Petersburg before the 5th of July, and its entry goodd not be known in Paris beinge the 12th of that mouth. All this gives time, and, in conjunctures like the present, time and reflection are often all that is needed to change the whole aspect of the case. The press of Vienna, however, says that it the Russian troops have not yet crossed the Pruth. the delay is owing to the insurmountable obstacles thrown in their way by the overflowing of the Lower Danube, and all other rivers in those parts. The belief is, however, that the whole thing will end like a duel which was never intended to be fought The news of an Austrian mediation in the triental question is promuture. Nevertheless it is asseried that this mediation will soon be accepted, and that the differences between the British and the Russian Cabinet will, by means of the good offixes of Austria, he brought to a satisfactory settlement This news is contained in a semi-official pa-

Congress to Learn. - The New York Times says mat sixtuen persons, and the Tritune says twenty-five, shed in New York on Wednesday last, from over-work and exhaustion. The Day Book says: "Suppose we should hear of twenty-five, or even

the smaller number, sixteen negroes in the South dving suddenly from exhaustion or overwork .-Suppose the New Orleans papers should announce that ten negroes had been worked to death by their masters in a hot sun? What a tremendous bue and cry there would be raised about it all through the forth, Every abolition paper North of Mason and Dixon's line would have food for six months and the whole world resound with the cry of cruelty to the negroes and the inhumanity of slave holders. Another Uncle Tom's Cabin would be writicu, and the authoress would travel with her haboous and receive the distinguished homage of the glaglish nobility. But such a thipg cannot be. No awner of slaves would permit them to work themselves to death in the hat sun. It is only the free laborer, working for his daily bread, that is pressed on to extremes. A man whose wife and children at home are waiting hungry for the proceeds of his daily toil, in his desperation takes the risk, pushes on and dies with over exertion."

TERRIBLE STROKE BY LIGHTNING .- Mr. Francis Cooly was instantly killed by lightning on Tuesmy of last week at Feeria, Wyoming county, New York. The deceased was standing in his store, filling a camphene can, when the lightning entered the back of the building, struck him near the head, and passed out through his heels, entireiy stripping him of his clothes, and causing instant death. The camphene was also inflamed, and when Mrs. Cooley entered the room, hardly a moment having elapsed, the deceased was standing upright against the wall, enveloped in a sheet of flame. Mrs Cooley and her sister were sitting, at the time, about a table, in a room over the store; and the top of the table was separated from its lers in an instant. Two persons were in the store at the time -one, a young man, stending nearthe door, was tossed into the street, a distance of nearly ewenty feet-the other, a lady, was prostrated and rendered senseless; but neither were

NEW YORK, July 15, 2 P. M .- The President at a late hour last evening unexpectedly determined

to return to Washington this P. M.

The steamer Daniel Webster from San Juan on the evening of the 6th, arrived this A. M. The Prometheus left San Juan the same evening

in place of the Daniel Webster, At the termination of the inaugural ceremonies vesterday, the President dined at the Astor House in private with his cabinet.

The Committee of the Chamber of Commerce visited him in a body. The President afterwards accompanied Gov. Seymour to the St. Nicholas Hotel, and had an in-

terview with the Earl of Ellesmere. At a late hour if party of ladies and gentlemen had a social dance at the Astor House, at which

the President and his Cabinet were present. When leaving the Palace yesterday, General Scott approached the President-a cordial greet- july19-im ing took place, and a conversation of some minutes

The amount received at the Crystal Palaceyesterday, for the erection of a National Monument in Washington, was \$60 84. It is ascertained on high authority that the diffi-

culty between Secretary Murcy and Mr. Buchanan is adjusted, and the latter will depart for England

THE LABRARY OF CONGRESS - The commodique and elegant-adorned room in the Capitol is now finished, and must be admired by every one for its exceeding beauty. It is supposed that in the course of two weeks the books will be shelved and the furniture (which is now bexed in the crypt) arranged in its proper place. The carpet is tapestry volvet, the pattern designed by Mesers. Clagett & Dodson, of this city, and approved by the Committee on the Library. It was manufactured expressly for those merchants by a company of Troy, New York. It is indeed a fine and rich specimen of American skill, and shows what ends can be accomplished in this branch of manufactures. We learn that one thousand yards have been furnished by Messrs. Clagett & Dodson for the Library, at a cost of two dollars and twentyfive cents a yard - Wash. Repub.

SPECIAL NOTICES.

Disease of the Liver-When the celebrated Dr. Rush declared that drunt eness was a disease, he enunciated a truth which the experience and observation of medical men is every day confirming. The many apparently same excesses of those who indulge in the use of spiritats liquous, may be thus accounted for. The true cause of conduct, which is taken for inflatuation, is very frequently a diseased state of the Liver. No organ in the human system, when derapged, produces a more frightful entalogue diseases. And if, instead of applying remedies to the manifestations of disease, as is too often the case, physicians would prescribe with a view to the original cause, fewer deaths would result from diseases induced by a deranged state of the Liver. Three-fourths of the discases comperated under the head of Consumption, have their Indigestion, stoppings of the Menses, Continues, and gene ral irregularity in the action of the Bowels, are diseases originating in the same prolific cause, as is also that dreadful scourge DYSPEPSIA. Those who are afflicted with any of the above enumerated diseases, may rest assured that the source of their malacies is the Liver; and for its correction, the best remedy ever offered to the public is Dr. M'Lanes' celebrated Liver Pill, for the cure of Hepatis, or Liver Com-For sale at all the principal Drug Stores in Nashville

R. R. R.-Miraculous Cures. - People wonder at the quick efficacy of the R. R. R. Remedies in stopping pain, removing its causes, and caring the most obstinate complaints. Yet there is no mystery in it-there is nothing miraculous about it. True until the R. R. R. Remedies were introduced, no remedy or medicine was ever known to stop the most torturing pains in a few seconds, and allay the most violent Cramps of Cholera, Neuralgia, Spasms, &c., in a few minutes. Radway's Ready Relief will stop pain instantly, because it produces a counter action upon the parts where pain is felt. If the patient suffers from Neuralgia, it irunediately acts upon the nerves, produces a counter irritation, invigorates the nerves, and imparts vitality to the parts where pain is experienced. The action of the Relief is quick, and the very moment it is applied, it begins to counternet the effects produced by diseased action. If you are the victim of Cholera, it acts instantlytaken internally, it settles the s'omach and allays all painful irritation and sickness, it infuses heat into the blood. and its warm and healthful influence thrills through every portion of the body; it NEUTRALIZES THE POISONOUS MALARIA OF CHOLERA AND CHECKS ITS PRO-GRESS. Applied externally, it allays Cramps and Spasms, and restores the cold-cramped and almost lifeless victim, to life and health. It you are troubled with Sick Headache, the Heady Relief taken interpally will neutralize the acid of the stomach, make the stomach sweet and pure, and the breath fragrantly; externally, it will produce a counter action on the scalp and refresh the senses. This, then, is all the raystery about the action of R. R. Relief. it does not lie in the action of the Relief, but in the science of its chemical and pharmaceutical combination. So with each of the other R. R. R. Remedies. The Resolvent acts in like manner upon the blood, and the diseased deposits, renovating and resolving away from the system all sprofulous humors

RADWAY'S REGULATORS. For regulating the organs of the system and securing a regular action of each; freeing the bowels from all retained humors, assisting the stomach, aiding the digestive organs in their functional doties, the liver to secrete its bile, and the kidneys and blad der their urine; the bowels to discharge their burden, and the skin to emit a free and healthy perspiration. Such are the effects the R. R. R. Remidies have upon the system, and the mystery of their curing the sick so quick.

R. R. R. Remedies are for sale by Druggists generally.

TRIUMPHANT OVER DISEASE. TRIS celebrated medicine, skillfully composed as it is of the most healing balsams and penetrating oils, can never full to oure almost every affliction that could be alleviated by an external remedy. Its superiority over all other Lini-ments is proven by the miraculous cures it performs, and by the great and conetantly increasing demand. There has been sold within the past year more than THREE MIL-LIONS OF BOOTLES, and there can be but few persons found who do not bestow upon it the highest praise for the rare virtues it possesses. Nothing, perhaps, since the creation of the world, has been so successful as an external reme-dy for all nervous diseases, as this wonderful enrative. When applied, it instantaneously diffuses itself through the whole yssem, coothing the irritated perves, allaying the most in-ense pains, and creating a most delightful sensation. I took her to the most eminent doctors in the East; they said there was no help for her but to outgrow it. With a sad heart I returned home with her, when she became so much worse that the doctors had to be called in again; they decided that the tousils must be cut off, as the only means of giving relief. My wife would not consent to this, and she determined to try your Limiment, which gave relief the very first application, and by a continued use she entirely re covered. She is now ten years old and fleshy and healthy as could be desired.
